

F-2012-00014 – Embryo storage following IVF cycles using patient’s own eggs in 2010

10 February 2012

Summary of request

The Authority was asked for the proportion of IVF cycles that started in 2010, used patient own fresh eggs and stored embryos.

HFEA response

The requested information is set out in the attached table and was extracted from the HFEA’s data warehouse containing Register data as at 10/02/2012. Please note that the information in our database may be subject to change as licensed centres notify us of information that updates or corrects information they have previously supplied. Cycle data up to 31 December 2010 have been subject to a verification process, and the centres that supplied the data have been asked to confirm their accuracy, for which they remain responsible.
