

## **F-2014-00196 - The number of donors whose eggs have resulted in five or more births**

04 August 2014

### **Summary of request**

The Authority was asked how many egg donors' donations have resulted in five or more babies being born, as well as additional information about each donor.

### **HFEA response**

The requested information can be found in the table below.

- [Table showing data about egg donors and resultant births](#) (xls 28KB)

Please note that this information contains frozen cycles and that the 'babies born' section is a total count and thus is likely to include siblings.
