

## **F-2016-00291-cycles involving use of PGS for chromosome screening**

22 November 2016

### **Summary of request**

The Authority was asked for information regarding fertility treatment comparing use of PGS for chromosome screening.

### **HFEA response**

Please find the requested data in the attached spreadsheet.

The data contained within the spreadsheet covers the period of 30/06/2009 to 30/06/2014.

As you will see I have replaced all low numbers with a '<5' because there is a significant possibility that this information, when combined with other information to which you may reasonably be expected to have access, could lead to the identification of a person to whom the HFEA owes a duty of confidentiality. To disclose this information in these circumstances may therefore result in a breach of the confidentiality provisions of section 33A of the Human Fertilisation and Embryology Act 1990 (as amended), and the information is therefore exempt from disclosure under section 44 of the Freedom of Information Act 2000.

This data was extracted from the HFEA's data warehouse containing Register data as at 22/11/2016. Please note that the information in our database may be subject to change as licensed centres notify us of information that updates or corrects information they have previously supplied.
