

F-2015-00139- donors re-registering 1991-1993

14th May 2015

Summary of request

The Authority was asked for the number of donors who originally registered between 1991-1993 who have now re-registered as identifiable and when they re-registered.

HFEA response

I have combined these numbers together in the fashion below as, if presented in the method requested, there is a significant possibility that this information, when combined with other information to which you may reasonably be expected to have access, could lead to the identification of a person to whom the HFEA owes a duty of confidentiality. To disclose this information in this way may therefore result in a breach of the confidentiality provisions of section 33A of the Human Fertilisation and Embryology Act 1990 (as amended), and the information would therefore be exempt from disclosure under section 44 of the Freedom of Information Act 2000.

Number of female donors who registered between 1991-1993 who we have a further registration form received after 1st April 2005.

<5

Number of male donors who registered between 1991-1993 who we have a further registration form received after 1st April 2005.
